ACADEMIC PROJECTS

Light Fedelity (LIFI) (11/2019)
Li-Fi is a high-speed wireless tech that uses visible light for data transmission instead of radio waves, similar to Wi-Fi but with 2-way connectivity.

Baby Incubator (10/2021 - 06/2022)
Incubators create a controlled space for premature infants to grow, regulating temperature, oxygen, humidity, and light levels for optimal development.
